

THE DESERT IS CALLING. WILL YOU ANSWER?

2021 Climate Stewards Summer Program

Runs: July 10 through Sept. 18

Scholarships are available

- The UC Climate Stewards Program is an all-virtual experience designed to take you on a full educational journey. You'll learn about earth systems, water, energy, and agriculture, plus citizen science, communication training, and more.
- The training will include an overview of state and local climate policies so that Climate Stewards serve as a catalyst for public participation in California's climate change initiatives.
- After certification is completed, UC Climate Stewards are encouraged to volunteer in community service and citizen science opportunities — such as land and water stewardship, civic engagement, education and interpretation activities.
- The goal is to prepare Climate Stewards to be community members who actively engage in efforts to advance ecosystem resilience in a rapidly changing climate.
- Cost is \$375. Continuing college credits and scholarships are available.
- Classes will take place via Zoom on Saturdays from 1 to 5 p.m. and select Wednesdays from 5:30 to 7:30 p.m., July 10 through Sept. 18, 2021.
